

# PORTLAND STONE WARE CO.

## BOLLARDS

Portland Stone Ware Bollards are designed to **provide protection and safety**. We have different options to meet safety needs.

**Bollards are visible barriers used to protect valuable areas.**

Common placement of bollards are in commercial/industrial settings to block areas such as parking lots, sidewalks, storefronts and utility equipment. They are also often used to restrict access to specific areas.

Portland Stone Ware bollards are made from minimum 3,000 psi concrete batches and specified pipe or tubing to withstand significant impact.

Bollards are used to protect and take impact.

# HOW TO ORDER
